MATH 396 PROBLEM OF THE WEEK COVER

Student Name	Total Score	/25
Instructor		
POW #	Due Date:	

_					•	Due Da				
	2000 - 2008 Intermediate Reader's Mathematics Scoring Guide 2000 – 2008									
For each category; your SCORE will be circled & details to aim for will be underlined or highlighted in the next level										
CONCEPTUAL UNDERSTANDING Interpreting the concepts of the task and translating them into mathematics WHAT?		PROCESSES & STRATEGIES Choosing strategies that can work, and then carrying out the strategies chosen HOW?		VERIFICATION In addition to solving the task, identifiable evidence of a second look at the concepts/ strategies/ calculations to defend a solution. DEFEND!		s/	COMMUNICATION Using pictures, symbols, and/or vocabulary to convey the path toward the identified solution. THE CONNECTING PATH!			
6	The task is changed into thoroughly developed ideas and is enhanced by other math ideas	6	Complex and/or enhanced processes and strategies are used to solve the task	6	The second time solving the t is enhanced, possibly by solv with a new strategy	ring 6	The path connecting concepts and strategies to the identified answer is very clear and enhanced possibly by graphics or examples			
5	The task is changed into thoroughly developed math ideas that work	5	A thoroughly developed plan using pictures, charts, words, graphs, and/or symbols solves the task	5	The second time solving the t is clear, and thoroughly developed, checking all parts the work		The path through all parts of the work toward the identified answer is thoroughly developed			
4	The task is changed into complete math ideas that can work	4	A complete plan using pictures, charts, words, graphs, and/or symbols is used to solve the task (all work is shown)	4	The check completely solves task a second time checkin ideas, math steps, and a solu	g 4	The path through the work toward the identified answer is complete			
3	Parts of the task are changed into math ideas that can work	3	The plan could solve parts of the task or the work is only partly shown	3	Some parts but not all of th work is checked	е з	The path through the work is partly shown			
2	The concepts of the task are underdeveloped or the task is changed into some ideas that do not work	2	The plan is underdeveloped (many missing sections) or the plan includes some strategies that cannot work	2	The check is underdeveloped (only a small section of the w is checked)		The path is not clear or is underdeveloped showing few connections within the work			
1	Inappropriate or minimal concepts are used or no ideas are shown	1	The plan is ineffective, the work is minimal, the work conflicts with the answer given or no work is shown	1	The check is ineffective for to ask, is only minimal, or no identifiable check is shown	1	The path is ineffective, minimal, or is not shown at all			
Acc 5	The answer is correct and the work supports it	4	The work had a small mistake by important parts of the work are fi			1 1	e work had a small mistake but the apportant parts of the work are fine
