

ES202 Cyber Friday Assignment – INSTRUCTIONS

A reminder we will not have lecture Friday Feb. 28, 2020, but will engage in an out-of-class video + reading assignment. **Review questions are due on Monday March 2, 2020 (by 11 PM).** The assignment is posted and activated in Moodle. See below for instructions as posted on the Moodle page.

Step 1: Log on to Moodle using Google Chrome

Step 2: Download "Surviving the Ice Age" Video review questions

Step 3: Download Surviving the Ice Age Video File (use Google Chrome and VLC Media Player)

Step 4: Watch Video and Answer Review Questions using MS Word

Step 5: Download "Climate Change text" review questions

Step 6: Download Load "Climate Change Reading" (pdf document)

Step 7: Read climate change chapter and answer the review questions using MS Word

Step 8: Upload both of your review question sets (MS word documents) to the Via Moodle by the March 2 due date

NOTE: The video assignment works using Google Chrome browser and VLC media player, both are available in the computer lab in NS216 (Natural Science Building). If your computer does not function properly, use the lab in NS216.

The screenshot shows the Moodle interface for the ES202 course. The page title is "ES202 Resources and Homework". It features a list of resources with expand/collapse icons and edit links. The resources include:

- Announcements
- Click Here to Connect to the ES202 Class Web Page
- Marshak Essentials of Geology Text Chapter Summaries
- AGI Lab Manual - Scanned Exercises
- Cyber Friday Jan. 16 Lesson Part 1: Birth of a Theory Video
- Hidden from students
- Cyber Friday Jan. 16 Lesson Part 2: Plate Dynamics Video
- Hidden from students
- Cyber Friday Feb. 27 Part 1: "Surviving the Ice Age" Video (click to open)

Below the resources, there are instructions for the Cyber Friday February 22, 2019 Lesson Part 1. The instructions state that the lesson involves watching an instructional video titled "Surviving the Ice Age" which explains the history of global climate change and glaciation at the Earth's surface. It provides a link to download the video review questions as a MS Word document (*.docx) and a link to upload the answer sheet through the Moodle Assignment Link. The assignment is due Wednesday Feb. 27, 2019.

Below the instructions, there is a resource for Cyber Friday Feb. 27 Part 2: Climate Change Reading (Click to Open). The instructions state that the lesson involves reading a chapter from Bierman and Montgomery Key Concepts in Geomorphology text entitled "Climate Change Overview" and answering review questions. It provides a link to download the review questions as a MS Word document (*.docx) and a link to upload the answer sheet through the Moodle Assignment Link. The assignment is due Wednesday Feb. 27.

Below the resource, there is a resource for Cyber Friday Feb. 22 - UPLOAD ANSWER SHEETS HERE!. It provides a link to upload the two MS Word answer sheets, one file for the "Surviving the Ice Age" video questions and one file for the "Climate Change text" reading questions. Assignments are due Wednesday Feb. 27, 2019.

At the bottom of the page, there is a link to Add an activity or resource and a link to Practice Quizzes.
