Colleagues - as discussed in class, see attached and below for a series of ES202 / ES476 extra-credit opportunities to attend seminar presentations related to Geographic Information Science at Western Oregon University. The seminars form part of a faculty search for a new Assistant Professor of Geographic Information Science in the Earth and Physical Science Dept. The events will be held on March 3, 7, 10, and 14; from 12:00 - 1:00 PM in NS101. Join us in providing a warm WOU welcome to our short-list finalists in support of a new minor and certificate program in Geographic Information Science, starting in Fall 2014.

Monday, March 3, 2014

Natural Science Seminar Series

12:00-1:00 PM, NS101

Melinda Shimizu, Arizona State University

"GIS and Decision-Making in the Niantic River Watershed, Connecticut"

This seminar presentation forms part of a faculty search for a new Assistant Professor of Geographic Information Science in the Earth and Physical Science Department. The hire will support a new minor and certificate program in Geographic Information Science starting in Fall 2014. On Monday March 3, 2014, short-list finalist Melinda Shimizu (ABD), visiting from Arizona State University, will present a research seminar entitled: "GIS and Decision-Making in the Niantic River Watershed, Connecticut"; 12:00 – 1:00 PM, NS101. Join us in providing a warm WOU welcome to our visiting candidate. For more information, contact Steve Taylor, taylors@wou.edu, 8-8398.

Friday, March 7, 2014

Natural Science Seminar Series

12:00-1:00 PM, NS101

Mohammad Kamal, PhD, University of Saskatchewan

Land-use and Land-cover Mapping Using Spaceborne Remote Sensing and Geographic Information Systems"

This seminar presentation forms part of a faculty search for a new Assistant Professor of Geographic Information

Science in the Earth and Physical Science Department. The hire will support a new minor and certificate program in Geographic Information Science starting in Fall 2014. On Friday March 7, 2014, short-list finalist Mohammad Kamal, PhD, visiting from the University of Saskatchewan, will present a research seminar tentatively entitled: "Land-use and Land-cover Mapping Using Spaceborne Remote Sensing and Geographic Information Systems"; 12:00 – 1:00 PM, NS101. Join us in providing a warm WOU welcome to our visiting candidate. For more information, contact Steve Taylor, taylors@wou.edu, 8-8398.

Monday, March 10, 2014

Natural Science Seminar Series

12:00-1:00 PM, NS101

Ryan Bergstrom, PhD, Gustavus Aldolphus College

"Change, Control and Sustainability in the Greater Yellowstone Ecosystem"

This seminar presentation forms part of a faculty search for a new Assistant Professor of Geographic Information Science in the Earth and Physical Science Department. The hire will support a new minor and certificate program in Geographic Information Science starting in Fall 2014. On Monday March 10, 2014, short-list finalist Ryan Bergstrom, PhD, visiting from Gustavus Aldolphus College, will present a research seminar entitled: "Change, Control and Sustainability in the Greater Yellowstone Ecosystem"; 12:00 – 1:00 PM, NS101. Join us in providing a warm WOU welcome to our visiting candidate. For more information, contact Steve Taylor, taylors@wou.edu, 8-8398.

Friday, March 14, 2014

Natural Science Seminar Series

12:00-1:00 PM, NS101

Paul Blanton, PhD, Central Washington University

"Disconnected Floodplains: Using GIS to Map and Analyze Human Impacts on Hydrologic, Geomorphic, and Ecological Processes in River Landscapes"

This seminar presentation forms part of a faculty search for a new Assistant Professor of Geographic Information Science in the Earth and Physical Science Department. The hire will support a new minor and certificate program in Geographic Information Science starting in Fall 2014. On Friday March 14, 2014, short-list finalist Paul Blanton, PhD, visiting from the Central Washington University, will present a research seminar entitled: "Disconnected floodplains: Using GIS to map and analyze human impacts on hydrologic, geomorphic, and ecological processes in river landscapes"; 12:00 – 1:00 PM, NS101. Join us in providing a warm WOU welcome to our visiting candidate. For more information, contact Steve Taylor, taylors@wou.edu, 8-8398.
