

Read lab manual Chapter 12 Groundwater; define the following terms or answer questions. Use internet search tools as needed.

Lab 7: Groundwater

7-1. Define the following groundwater terms (**use sketches as much as possible**).

A. Porosity

B. Permeability

C. Aquifer

D. Confining Layer

E. Karst

F. Recharge

G. Sinkhole

7-2. Discuss the processes that occur when water, carbon dioxide, and limestone bedrock get together.

7-3. List and discuss four pieces of evidence that suggest an area is subject to karst processes.
