

ES473 Environmental Geology

AEG Student Poster Night Assignment

Using your program guide and class notes from the event, write a 1-paragraph summary of each of the posters presented at AEG night.

Alternative assignment for those not in attendance:

Go to the class web page, and find the weekly link for the “marmot dam” case study papers (Major et al., 2010 and O’Connor et al., 2008). There are also two movie clips associated with the work. Read about the issues / findings related to the Marmot Dam removal east of Portland, and write a one to two page summary of the significance of dam removal in the Pacific Northwest, costs, benefits and other considerations.
