

## Table of Contents – ES408/508 River Environments of Oregon

---

Introduction to Landscape Analysis	p. 1-9
Fluvial Geomorphology Notes	p. 10-28
Watershed Figures	p. 29-34
River Equations and Hydrology Diagrams	p. 35-52
Field Hydrology Procedures	p. 53-64
Flood Analysis Procedures	p. 65-74
Paleoflood Hydrology	p. 75-79
Stream Classification	p. 80-89
Landforms: Floodplains-Terraces-Fans-Pediments	p. 90-97
River Incision, Erosion, and Knickpoints	p. 98-101
Soil Basics	p. 102-110
Mass Wasting Basics	p. 111-115
Surficial Mapping Methodology	p. 116-122
Unit Conversion Tables, Mathematic Reference Tables	p. 123-130

---

PNW Regional Physiographic, Climate and Vegetation Maps	p. 131-132B
Road Map of Field Trip Route	p. 133
Oregon Regional Tectonic Maps, Stratigraphy, and Time Scale	p. 133B-133F
Overview of Columbia River Basalts	p. 133G-133I
Geologic Maps of Field Stops	p. 134-140
Newberry Figures and Tables	p. 141-149
Topographic and Soil Maps of Select Field Stops	p. 150-184
Regional Flood Geography Figures	p. 185-188
Field Exercises and Review Questions	p. 189-230
Reading Questions	p. 191-194
Surficial Mapping Exercise	p. 195-196
Stream Ordering Exercise	p. 197-200
Intro Hydrology Problem Set	p. 201-202
River Concepts	p. 203-204
Field Exercise: Lower Paulina Creek	p. 205-208
Field Exercise: Whiskey Dick	p. 209-210
Field Exercise: Buckskin Mary	p. 211-212
Field Exercise: Petersburg, Oregon	p. 213-216
Deschutes River – Applied Hydrology	p. 217-222
Geologic Timeline Exercise	p. 223-230
Landscape Analysis – Harpham Flat to Maupin	p. 230A-230B
Addendum 1: Figures from O'Connor and Grant, 2003	p. 231-257
Addendum 2: Missoula Flood Figures (O'Connor et al)	p. 258-267
Addendum 3: Basics of Oregon Fisheries	p. 268-284
Keyword Index	p. 285
Blank Pages for Field Notes	p. 286-290
