

River Environments Field Guide - Key Word Index with Page Numbers

abrasion	13	exogenic	6	Petersburg bar	174A
aggradation	24	faults	4	physiography	1
A-horizon	103-104, 109	flood events, global	186-188	point bar	20
algebraic formulas	130	flood frequency	45, 66	pool	82
alluvial fan	93, 95-96	flood probability	40	precipitation	10
alluvium	20	flood recurrence	10-11, 14, 39, 66	rating curve	43
area, channel cross section	42, 55	floodplain	90	rational runoff equation	39
area, triangle	56	flow velocity, river channels	46	recurrence interval	0-11, 14, 39, 45, 66
aridisol	103-104, 109	fluid lift	18	relief	41
Arlington (delta)	183-184	fluvial	10	Reynolds Number	16, 36, 44
base level	6, 22	folds	4	riffle	82
baseflow	33	footslope	112	rill erosion	12
basin relief	41	force	2, 15	river	10
Benham Falls / lake	148, 159	force, centrifugal	21	river systems	31, 98
Bernoulli effect	18, 49	Froude Number	17, 35, 36	Rosgen classification	83-84
BFR	28	geometric formulas	128	roughness, manning's	17, 36, 47
B-horizon	103-104, 109	geomorphology	1	Rowena Crest	184A
bingham fluid	16	geothermal	3	runoff	10, 12
Bk-horizon	103-104, 109	glaciation	9	sea level	8
Bonneville landslide	184B-C	graded stream	23	sediment load, susp./bed	18, 19, 48
braided	20-21, 81	gradient	17, 23	shear force	13, 35, 49, 52
Bt-horizon	103-104, 109	gravity	3	sheet erosion	12
capacity	18	gully	12	shreve magnitude	38
carbonate accumulation, soils	108	Gumbel plot	67, 69	sinuosity	20, 22
Cascades (geology)	133C-133F	helicooidal flow	21	slackwater	28, 75-78
channel patterns	81	hillslope	112, 114	slope	17
chemical weathering	107	hillslope retreat	115	soil	102-110
Chezy equation	47	hollow	117	soil development	103
C-horizon	103-104, 109	hydraulic radius	14	soil horizons	03-104, 106, 109
climate	3, 7-8	hydrograph	33	storage	10-11
Columbia Basin	131A	incision, rivers	98-100	stream classification	80, 83-89
Columbia River Basalts	133G-133I	infiltration	11	stream gage	43
colluvium	116	intensity	10-11	stream ordering	34
competency	18	interception	10	stream power	35, 50
constructional process	5	isostasy	6	structure	4
continuity equation	13, 35, 38, 42	K-horizon	103-104, 109	surficial mapping	116-122
conversion tables	123-127	knickpoint	24, 101	surficial mapping protocol	116
corrosion	13	laminar flow	16, 44	Suttle Lake, map	153
creep	111, 113	landforms	4	tectonics	8, 133B
cross-sectional area	42, 55	landscape	5	terrace, strath/fill	25-27, 91-94
cutbank	20	landslide	111, 113	thalweg	82
cutoff	21	Lava Butte	146-148, 157	The Dalles, Hw197 road cut	174
dams, Pacific Northwest	185	lift, fluid flow	49	The Pot, map	169, 171
Dant, map	173	loam	102	time, geologic	5, 133F
debris flow	111, 113	manning equation	14, 35, 47	trellis	25
degradation	24	Maps - road log	133	trigonometric formulas	129
dendritic	25	Maps - geologic	134-140	Trout Creek, map	167
density	16	Maps - Newberry	141-149	turbulent flow	16, 19, 44
denudation	6	Maps - Topographic	150-173	units, metric	125
deposition	5	mass wasting	111-115	velocity (incl. stream flow)	13, 36, 46, 57, 61
depth, river	16	mass wasting, classification	113	viscosity	16
Deschutes, canyon profile	235	meander	20, 81	volume equations	125
Deschutes, fisheries	250-254	Missoula floods	259-265	water budget	10, 33, 36
Deschutes, hydrogeology	241-242	momentum	16	watershed	29-30
Deschutes, hydrology	236-240	Montgomery stream classification	85-89	weathering	6
Deschutes, maps	232-234	Newberry caldera	142	weight	3
Deschutes, paleohydrology	243-246	Newberry Volcano	141-149	wetted perimeter	13, 42, 44
Deschutes, sedimentology	247-249	newtonian fluid	16	Whitehorse Rapids, map	169
Deschutes, summary notes	255-257	Newtons Law of Attraction	3	work, physics definition	2
destructional process	5	O-horizon	103-104, 109		
discharge	13, 23, 35, 36, 65	ordering, stream	34		
downcutting	24, 99-100	orogeny	6		
drainage area	40	overbank deposit	20		
drainage density	38	overland flow	13		
drainage pattern	25-26, 32	oxbow	20		
duration	11	Pacific Northwest physiography	131-132A		
earthflow	111, 113	Pacific Northwest tectonics	133B		
empirical hydrologic equations	40	paleohydrology	28, 51, 75-78		
endogenic	6	Palouse loess	266-267		
energy	2	Paulina Creek, map	165		
energy, potential / kinetic	14	Paulina Lake	145, 149, 161		
epipedon	105	Paulina Peak, map	163		
equilibrium	7, 23	pediment	97		
erosion, agents	2	periodic table of elements	126		
erosion, defined	5	permeability	12
