# New Portal Icon

Posted on **November 18, 2014**

**NEW!** To simplify access to the new, dedicated faculty servers, UCS has created a Portal icon for course development. You can now access faculty-only Moodle servers for course development tasks by entering Moodle through this new "CourseDev" Portal icon:

Please use CourseDev to work on your courses (tasks such as creating, importing, backing up, or restoring content). This will prevent other users from being disrupted by site slowdowns caused by more intensive teaching tasks. You can also sign in directly at <http://coursedev.wou.edu>, kindly disregard the URLs shared in the previous email. **Please note:** Clicking on the *Dashboard Tasks* buttons in the sidebar of the *MyHome* page (or custom internal links in your courses) while signed into this site may still cause you to be redirected to <http://moodle.wou.edu>.

And don't worry! For your students and for other teaching tasks, your courses for Fall 2014 and all future terms are still located at <http://moodle.wou.edu>. You can login to this site normally using the WOU Portal. However, accessing Moodle through this URL will now trigger a 1GB upload limit to prevent the uploading of larger files that could cause a slowed response time for other users on the site.

Please don't hesitate to contact us with any questions! Happy Moodling 😊
