Moodle Scripts Calendar

Posted on **November 17, 2014**

With the holidays fast approaching, the end of year is near! Every term, Moodle automatically checks course and enrollment data in Banner to create and update your courses. To help you plan ahead for winter term, we'd like to share the Moodle script schedule with you:

Term	Start of Term	Generate Courses* (& Enroll Teachers*)	Enroll Students*	Delete Dropped Students
Winter	1/5/15	42 days prior	7 days prior	1 day prior
Spring	3/30/15	28 days prior	7 days prior	1 day prior
Summer	6/22/15	28 days prior	7 days prior	1 day prior
Fall	9/28/15	56 days prior	7 days prior	1 day prior

*Courses and enrollment will update nightly throughout the upcoming term.

Please note: Dropped students are only deleted once, the day before term begins. After the start of term, new students will be added nightly but dropped students must be removed by the instructor (make sure you have all the records you need for financial aid reporting or grade disputes before removing a student from your course).

Using a screenreader? Visit http://www.wou.edu/wp/moodle/moodle-scripts/ for a table version of the image above.

😄 Happy Moodling!
